# Adult and Youth Training for Venturing

## Online Learning Center

### **Venturing Fast Start (available as PDF or online)**

This guide is designed to assist the newly recruited Venturing crew Advisor in using the Venturing program planning process to get a crew up and running and off to a successful start. Highlights include program goals, Venturing methods, crew orientation, steps to getting your crew up and running, leadership position responsibilities, and hints for successful crew operations. It also provides information on suggested crew activities, cooperative and problem-solving games, and suggested agendas.

The BSA Online Learning Center provides a variety of materials, from quick references to complete courses, all designed to help our members improve leadership skills and deliver a quality program.

### **Venturing Crew Officers' Orientation**

An online orientation for Venturing Crew Officers

### **Venturing Leader Specific Training (No. 33491D)**

This training introduces the new adult crew leader to Venturing by providing basic information needed to successfully operate a crew. This information includes the purpose and mission of Venturing, characteristics of Venturer-aged youth, organization and leadership of the crew, and program planning and officer training.

### **Powder Horn**

Powder Horn is a seven-day course (also offered in the weekend variety) on high-adventure resources. It is not a personal development course like Wood Badge or even a skills course. It will let you experience many high-adventure skills, learn where to get the resources to support high-adventure programs, and discover how to offer those programs in such an exciting, out-of-the-box way that teens will keep coming back to meetings and activities.

### **Training Courses**

The Venturing Division conducts training courses each year at Philmont Scout Ranch.
